Our Rural Economy Faces Long-Term Challenges

RURAL PENNSYLVANIA HAS NOT FULLY RECOVERED FROM THE GREAT RECESSION

The Center for Rural Pennsylvania has identified an aging labor force, lower educational attainment levels, and limited broadband access as three factors challenging long-term growth

**“Let’s get to work
securing our future,
while preserving our
small-town values.”**

**Deb has the courage and the will
to tackle the tough issues for our
forgotten people & communities**

How do we make sure our children & grandchildren can make a life for themselves here at home?
